

Plus 1

3D PLUS

JUST FOR JEWELRY

Industrial Grade DLP 3D Printer PLUS 1

Brand	3D Plus DLP 3D Printer	Light source	LED UV	
Model	Plus 1(L90)	Scanning mode	DLP® Texas Instruments Inc.	
Formation Space	96×54×100mm	Operation system	32 bit Win7 or above system	
X/Y axis precision	50µm	Software	3D Plus Studio	
Z axis precision	25-50µm adjustable	Format	.stl .slc	
Device size	420×360×880mm	Printing speed		
Weight	57Kg	X/Y resolution (µm)	Layer thickness (µm)	Printing height (mm)
Power Supply	100~120VAC 7A/50/60Hz 200~240VAC 3A/50/60Hz	50	50	9-12
T&H	20~26°C , < 40% , non-condensing	50	25	6-8

High Definition

The definition is **1080p**(1920×1080)

High Working Life

Highly stable LED UV light source is used, and the service life can reach **20000** hours

Bigger Printing Size

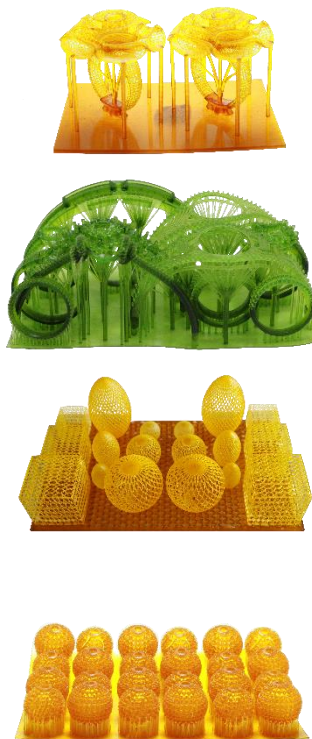

The molding size is bigger, which can reach **96(X)*54(Y)*100(Z)mm**

High Precision

The X/Y molding precision is 50µm, the thickness of Z axis layer is **0.025-0.05mm**

3D PLUS JUST FOR JEWELRY
 MORE THAN IN MANUFACTURING IT IS THE BEST EXAMPLE FOR APPLICATION

Direct Casting Resin-301C
 Very smooth surface
 Clean combustion

3D PLUS JUST FOR JEWELRY
 More than in manufacturing
 It is the best example for application

101W WAX-BEARING RESIN
 Easy Casting Easy Burnout
